Summary

I am a first-year university student who is enthusiastic and dedicated to web development. My passion lies in **JavaScript and its frameworks such as Next.js**. I have excellent **creative skills** and can **learn new things fast**, which I want to use to contribute effectively to dynamic projects. I am committed to continuous growth and learning about emerging technologies in the field of web development.

Experience

GUSTO CSR

Web Developer • Yangon

03/2024 - 03/2024

- Led the website development process for the GUSTO CSR organization as the lead web developer.
- Managed both front-end and back-end development to ensure seamless integration and optimal performance.
- To foster collaboration and facilitate knowledge transfer between front-end and back-end components, I guided a co-worker through the development process, demonstrating strong leadership.
- To meet the website's specific requirements, I strategically selected the best software architecture that ensured scalability, efficiency, and maintainability.
- I implemented the project using the Next.js framework, delivering a polished and modern website that perfectly aligned with the organization's objectives and branding.
- Here is the website. www.gusto-csr.org
- Researched and implemented correct coding practices for SEO, resulting in an average of 92% higher search engine rankings than previously

Shwe Du Wun

Web Developer • Yangon

08/2022 - 10/2022

- Developed a website with HTML, CSS, and JavaScript, implementing features such as filters, email, and a messenger chat box using Node.js and Express.
 - Led a team member through the project, providing guidance and technical support.
 - Designed, developed, and deployed a website using HTML, CSS, and JavaScript on a cloud platform.
-

Skills

Node.js, React.js, REST, JavaScript, HTML 5, CSS3, SQL, NoSQL, MongoDB

Education

GUSTO

Computer Science • Yangon

05/2025

- Achieved **Level-3 Foundation Diploma (UK)** in computer science.
 - Currently attending Year 1 in computer science to attain **Higher National Diploma (UK)** in computer science.
-

Languages

Certificates

Backend Development & APIs, Responsive Web Design

What did I learn from my progress?

Backend Development & APIs

The certification program provided learners with hands-on experience in various areas such as building microservices and web applications. They also worked on several projects including the Timestamp Microservice, Request Header Parser Microservice, URL Shortener Microservice, Exercise Tracker, and File Metadata Microservice. The program focused on developing proficiency in backend development, API integration, and automated testing. Learners were also trained to design, develop, and deploy scalable and efficient web applications while ensuring adherence to best practices and quality standards. They had to pass automated test suites to showcase their commitment to delivering reliable and error-free software solutions. The program gave a solid foundation in full-stack development, preparing learners for success in the field of web development.

Responsive Web Design

Learnt to create responsive websites that adapt to any device. Develop user-centric experiences using HTML5, CSS3, and flexible grids that shine in the digital landscape.
