👤 PROFILE

Hi! I'm a backend sorcerer fluent in the languages of Node.js and Python, architecting digital realms with lines of code. My passion lies in crafting robust systems and optimizing the unseen gears that power applications. Beyond the command line, I've donned the hat of a project manager, orchestrating successful ventures through the realms of technology. Let's build seamless experiences and conquer new horizons together!

🧠 STRENGHTS

Effective Leadership and Clear Communication

Adaptability and Innovation

Technical Expertise: Deep knowledge of backend tech.
